

THE WORLD'S MOST ADVANCED MICRO WELDING TECHNOLOGY

*Resistance, Pulse Arc, and Laser
Welding Solutions*

Pulse Arc. Sunstone's Orion line of pulse arc (TIG) welders, with digital energy control, are a comparably low cost solution for intricate and minute welding applications using any conductive metal.

Resistance. Advanced, digital control is a Sunstone hallmark, whether you need a AC, CD, DC, or HF platform. Sunstone can provide the right welding solution for every manufacturing challenge.

Laser. Sunstone's Orion line of benchtop laser welders are well known to provide more key features, a premium welding experience, and advanced welding controls. You'll be impressed by an Orion laser welder!

ADVANCED RESISTANCE, PULSE ARC, AND LASER WELDING TECHNOLOGY

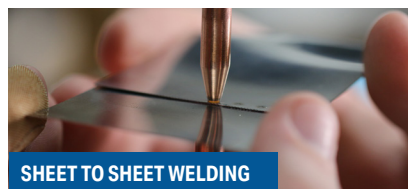

*Sunstone delivers the right
welding solution for your needs!*

Master these Applications and More with Sunstone Micro Welding Technology

- Thermocouples
- Battery Pack Welding
- Mold and Die Repair
- Coil Termination
- Relays
- Strain Gauge
- Aerospace Fabrication
- Honeycomb
- PCB Welding
- Electrical Components
- Sensors
- Injectors
- Magnet Wire
- Bonding
- Solenoids
- Pencil Coils
- Transformer Coils
- Actuators
- Seam Welding
- Wire Beading
- And more!

WIRE TO TAB WELDING

SHEET TO SHEET WELDING

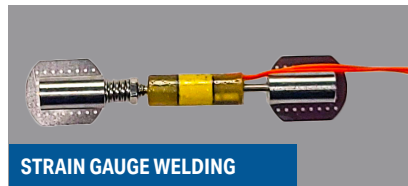

PCB WELDING

CATHETER BALL ENDS

COIL TERMINATION WELDING

STRAIN GAUGE WELDING

AUTOMATION WELDING

PULSE ARC SEAM WELDING
